PROFILE

A keen learner and student (**IT in B.Tech** from NSUT) with the ability to learn technologies require to build a website. I self-taught all the technologies I know with the help of open resources on the internet consumed content from YouTube and problems get resolved from StackOverflow and some communities. I believe in “**Involve in the process of learning and Evolve through the process of learning**”. Eager to tackle the web technologies/design to achieve lasting impacts on user experience.

EXPERIENCE

TEZOS CLUB NSUT

May,2022-Present

Tezos works in the field of Blockchain and WEB3 and currently, I am working and learning with them and managing their social platform and frontend part also.

PROJECT

Online Typing Test—

It's a full stack typing test in which users can test their typing speed and a leaderboard of a top 100 player. To develop this web app I use various latest technologies like HTML, CSS and Javascript for the frontend, NodeJs for the backend, MongoDB for the database and socket.io for the web socket.

HandTrack Game—

This game is built using TensorflowJs which is a library of Tensorflow applied directly on the browser. In this game, a car is moving relative to the position of the hand on the screen and handtrack is used to track the position of the hand with respect to the screen.

Several React apps—

I have worked on several apps and clones using React such as Netflix, Blogging, authorization page and many more.

Minor projects—

Scientific Calculator(Python, Tkinter) | Weather app(NodeJs) | FlappyBird game | Whack a mole | Hangman

EDUCATION

Netaji Subhash University of Technology (formally NSIT), Dwarka,
New Delhi-110078 2021-Present

SKILLS

HTML, CSS, Javascript, ReactJs, NodeJs, MongoDB, Python, Git, Linux Commands, Communication skill and many more frameworks/library.
